# ForgeRock: Access The Future

Digital transformation demands an agile, future-minded, and all-encompassing digital identity platform.

At ForgeRock, we help people safely and simply access the connected world by enabling exceptional digital experiences; no compromise security; and comprehensive functionality at any scale with simple, flexible, and rapid implementations.

We help people safely and simply access the connected world.

### **Leverage One Comprehensive Platform for Every One and Every Thing**

The ForgeRock Identity Platform is both comprehensive and simple-to-use. It can be implemented across your organization for all identities and use cases — consumer, workforce, and things. The ForgeRock Identity Platform consists of identity management and governance, access management and strong authentication, identity gateway, directory services, user-managed access, and edge security. The platform can be consumed as-a-service or deployed as software. Software deployment options include on-premise, or within any cloud environment, including multi-cloud and hybrid-cloud, for millions of identities in minutes using ForgeRock's full DevOps capabilities.

### **Do Digital Identity Your Way**

ForgeRock equips you to do identity your way. Our open platform offers the most digital identity integration options of any provider. Additionally, ForgeRock's technology ecosystem of over 75 partners gives you direct access to endless digital identity capabilities using the ForgeRock Identity Platform.

Importantly, with ForgeRock, you don't need to suffer the pain, risk, and expense of ripping out existing Identity solutions to get the features and benefits of IAM modernization needed to compete in the digital landscape. ForgeRock's API-first design enables full coexist implementations for immediate and sustained value throughout the transformation process.

### **Join Our Community of Digital Transformation Leaders**

As a global digital identity leader, ForgeRock secures and manages over 2 Billion identities — approximately 25% of the world's population. ForgeRock provides critical identity solutions for the world's largest companies, including Toyota, GEICO, and Thomson Reuters, as well as governments such as Norway, New Zealand, and Belgium, among many others. ForgeRock customers are digital transformation leaders who utilize the power of digital identity to grow their business, manage security risks, improve productivity, and reduce costs.

ForgeRock customers are digital transformation leaders who utilize the power of digital identity to grow their business, manage security risks, improve productivity, and reduce costs.

With ForgeRock, your possibilities are limitless.  
Join our community and access the future.

# The ForgeRock Identity Platform™

## **Identity Management**

- › Seamlessly manage identity relationships across all channels, on-premises, in the cloud, and on mobile, for your customers, employees, and things.

## **Identity Governance**

- › Manage and reduce the risk that comes with excessive or unnecessary access of users to applications, systems and data.

## **Access Management**

- › Protect against the latest threats and drive personalization using the world's only dynamic orchestration and intelligence engine that captures rich context to make continuous access decisions.

## **Identity Gateway**

- › Bridge identity and enforce security protocols simply and consistently across business apps, APIs, and microservices — all with one solution.

## **Directory Services**

- › Prepare for rapid growth with a high performance and resilient directory service designed to handle massive transaction volumes and address the latest security and privacy requirements.

## **Edge Security**

- › Close the IoT security gap and build trusted identity relationships with a secure solution that includes contextual security, open standards, and scales to meet IoT-level demands.

## **Profile and Privacy Management**

- › Provide a centralized dashboard for your customers to conveniently manage their profile and privacy preferences while ensuring compliance with data privacy regulations.

# Our Customers' Success Proves the Value

ForgeRock customers span the full spectrum of industry verticals, including financial services, telecommunications, media, retail, insurance, automotive, government, and education, among others.

"We're looking at savings of up to \$15 million over five to six years tied directly to the efficiencies gained from having modernized our IAM infrastructure leveraging the ForgeRock Identity Platform."

**DAVE FLETCHER, Chief Technology Officer, State of Utah**

**TOYOTA**

"The ForgeRock Identity Platform enables us to deliver a real-world Internet of Things experience—allowing us to use the car itself as an identity to provide authentication to the services platform."

**KOSTAS GKIRKIZAS, Senior Project Manager, Car IT — Information Systems, Toyota Motor Europe**

**GEICO**

"We don't have to adjust our services to the product, the product adapts to our services."

**JENS SONNENTRÜCKER, Head of Identity Access Management & Governance, Swisscom**

"ForgeRock understood what it meant to create a modern, best-in-class web experience for our large and exceedingly diverse customer base."

**GREG KALINSKY, Senior Vice President & Chief Information Officer, GEICO**

"By providing simple, secure access to government services, the ForgeRock Identity Platform played a large part in the success of the eGovernment initiative."

**TOR ALVIKCOO, Agency for Public Management & eGovernment, Norway**

# A Consistent Digital Identity Leader and Visionary

“Overall, ForgeRock is amongst the leading-edge vendors in the IAM space and should be considered in product evaluations.”

KuppingerCole

## KuppingerCole Overall Leader

- › Access Management and Federation
- › Identity API Platforms
- › Identity Provisioning
- › Adaptive Authentication
- › Customer Identity and Access Management.
